To: Apex Delivery Team <delivery@apex-dts.com>
Date: March 3, 2026
Subject: Re: SOW Draft v0.2 — URGENT Alignment Needed

Team,

I reviewed the SOW v0.2 this morning and something is still off. The scope section still says *"Migration of 3 source systems"* even though our expectation (per last quarter's architecture brief) is *5 systems* — ERP, MES, SCM, Quality, Finance.

Also, can you confirm whether the analytics segment includes **Power BI workspace governance**? It's implied but never explicitly written.

We cannot route this to Legal yet until the SOW becomes internally consistent.

Thanks,
Nadia

EMAIL 2

From: Daniel Cho <daniel.cho@apex-dts.com>
To: Nadia Verma
Date: March 3, 2026
Subject: Re: SOW Draft v0.2 — URGENT Alignment Needed

Hi Nadia,

Noted. We'll update the SOW to list all five systems explicitly. The analytics governance component *is* included, but we'll make it unambiguous in the next revision.

The training section will also be updated — we saw some confusion about whether "10 sessions" includes workshops or only enablement recordings. We'll clarify that the deliverable includes **10 structured sessions (6 live workshops + 4 recorded modules)**.

Daniel

EMAIL 3 — INTERNAL FORWARD (NOISE)

From: Nadia
To: Helios Leadership (Data & Ops)

Date: March 3, 2026
Subject: Fwd: Re: SOW Draft v0.2 — FYI

Forwarding.

Please ignore the cost numbers; Apex's PMO reused last year's rate card in v0.2.

Also, the SOW still doesn't show:

- Effective Date
- Term
- Dependencies
- Issue Escalation Path

Just keep in mind when reviewing.

EMAIL 4 — RANDOM THREAD WEAVE

From: IT Operations <itops@helios.com>
To: Nadia
Date: March 4, 2026
Subject: RE: Did anyone confirm monitoring?

Nadia,

Can you check whether Apex is providing **Grafana dashboards** or if this is out-of-scope? Someone from their side told us "monitoring is not part of the modernisation" but another Apex engineer said "we'll include observability hooks".

Also, unrelated—who is even *signing* this contract from Apex?

IT Ops

EMAIL 5 — APEX PMO ATTACHES WRONG VERSION

From: Apex PMO <pmo@apex-dts.com>
To: Nadia
Date: March 4, 2026
Subject: SOW v0.3 (I think?)

Hi Nadia,

Attaching SOW v0.3.
Ignore the Term section — we started rewriting it but didn't finish.
Also, Timeline table looks incomplete because of a formatting issue.

Let us know if everything else looks okay.

(A file named **SOW_v0.3_FINAL_NOT_REALLY.docx** is attached.)

EMAIL 6 — FINANCE COMPLAINS

From: Ravi Patel <finance@helios.com>
To: Daniel, Nadia
Date: March 5, 2026
Subject: Re: Cost Structure Clarification

Team,

Before this moves forward, can we get a **proper cost split**?

1. Fixed Fee portion (Architecture + Migration + Analytics Enablement)
2. Estimated T&M hours for enhancements
3. Confirmation that the rate card below is *current* (Architect at $185/hr seems unusually high):
    - Principal Architect: $185/hr
    - Senior Data Engineer: $140/hr
    - Data Analyst: $95/hr

Also, is there a **SOW reference ID** yet? It's missing in the versions I've seen.

—Ravi

EMAIL 7 — PARTIES REVEALED (KEY EMAIL)

From: Nadia
To: Helios Legal, Apex Team
Date: March 6, 2026
Subject: Contracting Entities Confirmation

Just confirming for contract accuracy, the legal contracting parties are:

✅ **Helios Global Manufacturing Corporation** (Client)
✅ **Apex Digital Transformation Services Ltd.** (Vendor)

Please ensure this is reflected exactly (spelling & capitalization) in the header of the SOW and in signature blocks.

—Nadia

EMAIL 8 — APEX LEGAL REVEALS SIGNERS (KEY EMAIL)

From: Apex Legal <legal@apex-dts.com>
To: Helios Legal, Daniel
Date: March 7, 2026
Subject: SOW Signatory Confirmation

Hello team,

Per Apex corporate policy, the authorized signatory for this engagement will be:

Apex Signer:

- **Evelyn Park — Director, Strategic Programs**

Based on prior communication, Helios will have the SOW signed by:
Helios Signer:

- **Jonathan Meier — VP, Global Technology & Data**

Please confirm both names before we finalize signature blocks.

Regards,
Apex Legal

EMAIL 9 — THREAD CHAOS (MIXED CONTENT)

From: "Karen? maybe" <karen.temp@helios.com>
To: Nadia
Date: March 7, 2026
Subject: Re: SOW v0.3 or v0.4?

Nadia—someone uploaded a "v0.4" file to Teams but it looks older than v0.3. The project timeline table is *completely missing*.

Also, I saw a note: "Term TBD."
Is the Term supposed to be:

- 6 months?

- End of FY26?
- Or until Phase 4 is accepted?
  No idea what we agreed on.

—Karen

EMAIL 10 — FINAL CLEANUP EMAIL

From: Daniel
To: Nadia, Helios Legal
Date: March 8, 2026
Subject: Consolidating Outstanding SOW Items

Team, here's what we are still missing and will include in v0.5:

- **Effective Date** (pending from Helios Legal)
- **Term** (we can propose: "Valid until Sept 30, 2026 unless extended")
- **Issue Escalation Path** (Level 1 → PMs, Level 2 → Directors, Level 3 → Executive Steering Committee)
- **IP Ownership Clause** (will add: Client owns deliverables, Apex retains pre-existing materials)
- **Dependencies** (Azure provisioning + SME availability)
- **Full 4-phase Project Timeline Table**

Once these are added, we'll circulate the new version.

Thanks,
Daniel
